

## Untitled: Speakable contemplations about Detroit experiential

Wit da absence of *Union Station* as tha ultimate “Beacon of hope”  
in an economically determinant sensitivity

there came the *possibilities* that anything is possible when  
energies of the totality of our

existence (energies, living, dead, yet to be born, in  
transit, spirits) seek a new definition of laughter

This laughter is none other a *spiritualawakening* which we don't  
create 'cause we are the created

¿Why does the *splashing of cold water* by a new found friend-  
relative (all our relations) feel so ecstatically dyNamite?

The *white deer* call out our names as our closest relatives  
seeking a new way to enjoy the bounties of a laughing hyena  
parking outside in a green, yellow, Or<sub>A</sub>nge, purple, polylectic  
looking *dots* that speaks of a new language of comedy

Why comedy?

We never know why immediately in a chaotic and psychically  
hypnotic tone

simple as complex thermodynamic interactions of 15th  
dimensional rotations in an avocado sphere  
a bundle of J<sub>O</sub>y perhaps?

The *free-flowing/growing grass* and ghettonic  
palms create an atMustphere for  
life to commence in disguise

The *similar energies* emerged Sunday and continue to blossom as  
the dew sats on da baby boom of the African violet awakening  
from the *transformation of a house*

The *sweat from the hard work* happens to be the dou

falling like a torrential downpour of  
electromagnetic energy fields upon the above-  
mentioned family members

¿What's in a name? ¿What's in a name?

confused statement of individualized harmonies beating in one  
order of a mangled neck ripped apart by a carnivorous pack of  
unknown walking objects, but held together by the dis-ease state  
of the mucous-saliva entrode. The tree asks who we are and why  
we are here?
