

Date: 2021-09-24

Good afternoon Sam, I hope that you are doing well.

I'm sorry for my delayed response to your e-mail dated 15 September 2021, with the subject of "Your posts on ResearchGate".

I want to thank you for contacting me concerning the removal of some of my postings from ResearchGate:

- https://www.researchgate.net/post/Has_SARS-CoV2_been_isolated_purified_and_demonstrated_to_be_the_cause_of_COVID19#view=610dfff0e2c6ed0dc2404ab8
- https://www.researchgate.net/publication/354131484_COVID-19_Tests_For_Nothing_No_Coronavirus_Has_Been_Proven_to_Exist_What_You_Are_Not_Being_Told_This_is_Just_the_Tip_of_the_Iceberg
- https://www.researchgate.net/publication/354131209_Face_Hiding_For_No_Legitimate_Reason_No_Coronavirus_Has_Been_Proven_to_Exist
- https://www.researchgate.net/publication/354131199_Germs_Can_Not_Do_Not_Cause_Dis-ease_The_germ_theory_of_disease_causation_is_a_Fraud

In order to better understand the outlined reasons for the removal of my postings, I would like for you to:

- 1) Please provide the records of studies {i.e. title, author(s), date, journal name, where the public may access it} that indisputably show that SAR-COV-2 virus has been proven to exist (complete purification, isolation, and definition of biochemical properties plus electron micrograph).

Please note that I am using "isolation" in the everyday sense of the word: the act of separating a thing(s) from everything else. I am not referring to the "isolation of SAR-COV-2" as it relates to:

- the culturing of something,
- the performance of an amplification test (i.e. a [RT-]PCR test), or
- the sequencing of something.

- 2) Please provide the records of studies {i.e. title, author(s), date, journal name, where the public may access it} that indisputably show that the aforementioned virus causes a disease called COVID-19 (and also that other factors like malnutrition, toxins, electromagnetic wave interference, etc. do not at least co-determine the course of disease). Please note that electromagnetic wave interference, industrial poisons, various drugs, and/or other non-germ factors (such as antipsychotics, opioid analgesics, anticholinergics, and/or antidepressants) may be a cause of respiratory diseases, such as pneumonia and thus also COVID-19.

- 3) Please provide the records of at least two studies {i.e. title, author(s), date, journal name, where the public may access it} that indisputably show that vaccinations are completely safe and effective.

According to <https://www.fluoridefreepeel.ca/68-health-science-institutions-globally-all-failed-to-cite-even-1-record-of-sars-cov-2-purification-by-anyone-anywhere-ever/>, (at the time of writing this e-mail) 107 institutions around the globe have **NOT** been able to provide a single record of the isolation of the SAR-COV-2 virus.

From my own research over many years, I have yet to locate a record where anyone has conclusively proved that "germs" cause disease thus confirming all of Friedrich Gustav Jacob Henle-Robert Koch's Postulates as well as Thomas M. River's Postulates.

- 4) Please provide the records of at least two studies {i.e. title, author(s), date, journal name, where the public may access it} that that indisputably show that "germs" cause disease thus confirming all of Friedrich Gustav Jacob Henle-Robert Koch's Postulates as well as Thomas M. River's Postulates.

Global health authorities have recommended the use of partial face coverings (face masks, face shields, etc.) to prevent an infection by the SAR-COV-2 virus, but I have not located any records that have conclusively shown the proper isolation and purification of the virus. Thus, no one has proved, yet, that that virus has caused and can cause any nosological condition.

Global health authorities have recommended the use of [RT-]PCR and/or antibody tests to determine that an infection has been caused by the SAR-COV-2 virus, but I have not located any records that have conclusively shown the proper isolation and purification of the virus. Thus, no one has proved, yet, that that virus has caused and can cause any nosological condition.

I have made the aforementioned requests to verify that there is scientific validation for the removal of some of my postings (i.e., that the questions that I posed are not scientifically valid). If there is not scientific validation for the removal of some of my postings, I would like for you to repost them back at ResearchGate so that the global academic audience (and general public) can benefit from the questions that I have posed.

I want to thank you in advance for your time and consideration.

Irucka Embry, E.I.T.

No fear, Only Love!

–Irucka Ajani Embry, 15 March 2020

“If virulent germs were normal in the atmosphere, how numerous would be the occasions for their penetration independently by way of the lungs and intestinal mucus! There would not be a wound, however slight, the prick even of a pin, that would not be the occasion for infecting us with smallpox, typhus, syphilis, gonorrhoea.”

–Professor Béchamp, as quoted in *Béchamp or Pasteur?: A Lost Chapter in the History of Biology* By Ethel D. Hume on page 308 [prefaced by *Pasteur: Plagiarist, Imposter: The Germ Theory Exploded* By R. B. Pearson], ISBN# 978-1-46790-012-6, 2011

“The general public, however intelligent, are struck only by that which it takes little trouble to understand. They have been told that the interior of the body is something more or less like the contents of a vessel filled with wine, and that this interior is not injured — that we do not become ill, except when germs, originally created morbid, penetrate into it from without, and then become microbes.

“The public do not know whether this is true; they do not even know what a microbe is, but they take it on the word of the master; they believe it because it is simple and easy to understand; they believe and they repeat that the microbe makes us ill without inquiring further, because they have not the leisure — nor, perhaps, the capacity — to probe to the depths that which they are asked to believe.”

–Professor Béchamp, preface to *La Théorie du Microzyma*, as quoted in *Béchamp or Pasteur?: A Lost Chapter in the History of Biology* By Ethel D. Hume on page 304 [prefaced by *Pasteur: Plagiarist, Imposter: The Germ Theory Exploded* By R. B. Pearson], ISBN# 978-1-46790-012-6, 2011
