Attn: Public Records Request
Tennessee Department of Health
Andrew Johnson Tower
5th Floor
710 James Robertson Parkway
Nashville TN 37243

To Whom It May Concern:

Please provide all records in the possession, custody, and/or control of the Tennessee Department of Health describing the isolation of a SARS-COV-2 virus, directly from a sample taken from a diseased patient, where the patient's sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; liver cancer cells, etc.).

Please note that I am using "isolation" in the everyday sense of the word: the act of separating a thing(s) from everything else. I am not referring to the "isolation of SAR-COV-2" as it relates to:

- the culturing of something,
- the performance of an amplification test (i.e. a [RT-]PCR test), or
- the sequencing of something.

Please provide all records in the possession, custody, and/or control of the Tennessee Department of Health describing the complete matching genomic sequences of the SARS-COV-2 virus sample isolated from a diseased patient in Metro Nashville, Tennessee, with the SARS-COV-2 virus sample isolated from "patient zero" in Wuhan, China.

Please also note that my request is not limited to records that were authored by the Tennessee Department of Health or that pertain to work done by the Tennessee Department of Health. My request includes any sort of record, for example (but not limited to) any published peer-reviewed study that the Tennessee Department of Health has downloaded or printed. If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each record with certainty {i.e. title, author(s), date, journal name, where the public may access it}.

Please provide the records of studies {i.e. title, author(s), date, journal name, where the public may access it} that indisputably show that SAR-COV-2 virus has been proven to exist (complete purification, isolation, and definition of biochemical properties plus electron micrograph).

Please provide the records of studies {i.e. title, author(s), date, journal name, where the public may access it} that indisputably show that the aforementioned virus causes a disease called COVID-19 (and also that other factors like malnutrition, toxins, electromagnetic wave interference, etc. do not at least co-determine the course of disease). Please note that electromagnetic wave interference, industrial poisons, various drugs, and/or other non-germ factors (such as antipsychotics, opioid analgesics, anti-cholinergics, and/or antidepressants) may be a cause of respiratory diseases, such as pneumonia and thus also COVID-19.

Please provide the records of at least two studies {i.e. title, author(s), date, journal name, where the public may access it} that indisputably show that vaccinations are completely safe and effective.

Delivery preference
